Messages of Condolence

There are no words other than he will be missed by all that knew and loved

— Jake and Betty Tschetter

Growing up Mom and Dad were always close with Harry. When ever I would go to the shop with Dad, Harry was there with a smile and would talk to a little kid. I always remember how cool his pickup truck was with the bunk on the back. That's what I wanted on my truck. He always had a smile and kind words and he was one of my favourite people. Now him and dad will drive the long highway playing Pacman and enjoying each other's company.

He will be missed.

— Tim Piper

To your family may you find Comfort at such a difficult time. Harry was a great man and friend of the family. I always loved seeing him around the office, back when I was a summer student. He was a master of his craft! Hugs to everyone

— Michelle and Kevin McNutt and family

Figured out Gary and I have known Harry for 37 years, trucked many a mile and had a lot of good times together. Harry was a kind and patient man who always had time to visit and say hello. He and Gary are probably swapping stories about trucks and horses. I will treasure the memories.

— Cheryl Piper

I went to school with Patty and know how much she loved her dad. My heart goes out to all of the family right now and always. Love and hugs. xoxo

— Sharon Sarchfield

Harry was a wonderful man who truly loved his family and friends. We will miss him deeply.
