Messages of Condolence

Gene we will miss you at our card games, military whist and on Saturdays. You always had a smile and we never heard you say anything that was out of place. We pray for your soul and may you rest in peace.

Gene will be sadly missed by everyone here in the community. I enjoyed all our conversations in the garden during the summer months for so many years. Every day he was so happy he brought cheer into our lives and alot of joy to my husband Les. Les was wheelchair bound before he passed away and Gene always took the time to chat with him out on the street. My sympathy goes out to you, his family. May you have courage and strength and the ability to be soothed by all the happy memories of such a wonderful man.

On behalf of the Huntington Pioneers Association, we would like to pass along our deepest condolences to the Hubbell and Heitman families. We will miss his smile and his positive outlook on life.
