New technology was her favorite interest and she always had the latest in electronic devices.

I'm so sorry to read about your mother. She messaged me that she was going into hospice, but I was unable to contact her and she never got back to me. I knew her from online and then we met here in Calgary and visited with each other, even down south. I was in Arizona and she was usually in California, though we did get together when she was in Arizona, south of Phoenix. She was a good lady. Luella and my dog, Tunerk, played when we visited. Take Care.
