Messages of Condolence

Rip, so much love and grace sent to you and your family at this time. No loss is easy, sure hope you and that blue truck can putt around up there. You've got the best view of your family now.

My condolences, Cherilyns childhood friend, Robyn.

My condolences to the family of Rob. He was such a great man. Is high school friend that was treasured for many years after high school. To his daughters, he was so proud when he spoke of you and saddened when he was not with you on a daily basis. He loved you three unconditionally.

— **Shelley OBrien (Briggs)**

Rob will be missed dearly. He was such a great man. One of my favorite things about him was his laugh and his cheeky attitude. His family at Canada Post will always hold him close to our hearts. Warm hugs and healing thoughts for his family and friends.

Sending my condolences & prayers to all of Rob' s family. Rob and I were old grade school friends. Years later he turned out to be my yard guy in the summer and my snow shovel guy in the winter! He was the best yard guy around very meticulous, he took great pride with the care of my law. My lawn was always beautiful! We were missing him so much I attempted to send him a message on FB. I noted the message he received!
