Messages of Condolence

Sue and I were fortunate enough to meet Carole on one of her many global adventures when we went on a tour of India and Nepal. Carole was such a positive, charismatic and enthusiastic traveller and so easy to get along with. We struck up a firm friendship on that holiday and have been very close friends for the past 17 years. We were very pleased to visit her on "home territory" in 2023 when she welcomed us to her lovely apartment in Fort Qu'Appelle, showing us the beauty of her Province and a neighbouring National Park. Every time we spoke to Carole it was clear that she cared deeply for others, and that family and friends meant everything to her. She was the most selfless person we've ever met. She faced her own health challenges with courage and determination but also a down to earth sense of reality, but we never heard her complain as she always saw the positives in every situation. We feel deeply honoured to have been her friend. She truly was a force of nature, one in a million and we will miss her terribly. We send our sincere and heartfelt condolences to her entire family at this very sad time.
