Messages of Condolence

It is with deep regret we learn the passing of our friend and neighbour Glenn. We know of his love for cats as one time his big white persian disappeared for several weeks and low and behold if we didn't find him behind a cupboard in our garage where he/she had been for at least two weeks until we investigated further to where all the fur was coming from each morning. Then Glenn learned we had him he broke into tears knowing he would never get his beloved cat back at least not until I told him I had his cat. He was so relieved.

That will be our memory of Glenn. We did some work for him and he used to supply us with the five gallon pails knowing we were in the business where we could use them. We were devastated when we heard of his passing. Our sympathy goes out to you, his family.

Sincerely

Jim and Jolaine

We were shocked to hear this devastating news! We always cared for him even though we only saw him a few times over the years. We would run into each other shopping etc. and have a nice visit. Our condolences go to Natalie and family. Our thoughts and prayers are sent out to the rest of the family as well. It is sad we have so little contact with that part of the family.

Love, Dave and Myrna Coghill
