Messages of Condolence

Wish all the family the best through this difficult time. Sad that a love one has to leave but the best thing is she is in Heaven and it is such a great place to be no more worry or suffering.
Take care I watched the service online next best thing to being there.

So sorry to hear of the passing of Aunt Phyllis. I know there is a special bond with a Mother and the loss regardless of years is so very difficult. We are so thankful that she is a child of God and is in a wonderous place now and know that some day the family circle will be restored. Our thoughts and prayers are with you all at this time.
