What memories we have of this young man. He will definitely be missed. It was always so nice to see him at Kozy Klean all the years he worked there. He would make a bee line over to say "hello" and was always happy to see us. Our thoughts and prayers are with you all at this difficult time. Love you all very much! Until we see him again...

I am so sorry to hear this. Ken became my rock 2 years ago when I was struggling. He came and helped me pack up my home and let me live with him for a few months after I moved back to Kamloops. He took care of me. He was such a kind person and just so full of laughter and energy. His humour will be greatly missed. I had known him for 10 years on and off. A dear friend whom I will miss talking with. Most of all the stories he had written will be missed. He had such a brilliantly creative mind with amazing tales he had wrote himself. His heaven vs. Hell was the one he obsessed over the most. Rest in peace. I will forever remember our friendship.

I can't bring myself to reality or comprehend that you are gone. We have always done everything together from going camping, building fires, hiking hills, mountains, valley, going to the lake, watching endless documentaries on crime or aliens or the unknow, going to the movies, watching Avatar in theaters 13 times!, working together on the farm as kids when you would come to visit me and here with Carlos gardening and landscaping, going on adventures and where ever it took us, having Nurff wars in public parks, mini golf, hanging out and just talking, having back yard fires and drinks, listening to you tell me your stories or theories, the list never ends but it does now as a new list beings of what we never got to do and planned to. I'm going to miss your laughter, your loving warm smile, your embracing hugs, watching you be the best uncle thinking of how great a dad you would make, you Always being there for me no matter the time of day or how tired you where or whatever it was you where always there, your quick wit and smart mouth, your sick jokes, your love for walking EVERYWHERE, your hard working ethic the job be small or Large, your love of photography and filming, your passion to be a master biulder with Lego, I will miss your presence, you are greatly loved and I know you knew that. I love you and will alway miss you. A part of you is in me and I hold that in my heart. RIP BROTHER God is with you.
