It is with great sadness I leave my condolences to the family on news of Preston's passing. Though we lost touch over the last few years, Preston has frequently been in my thoughts as has all the Meyer family. I will always remember Preston, as a kind, giving, funny and wonderful soul that it was a pleasure to be around. He will always be the drummer in our band! and always have a special place in my heart. All my and Deb's deepest sympathy to the family.

For many years Preston was a best friend of mine.. I loved him dearly. He was such a kind caring friend and a loving father, son and brother. Preston will be truly missed though his love of life and dreams for a a better tommorow will live on through his beautiful children. My heart goes out to you all. He will be sadly and truly missed.

Much love to you all

— **Joanne Fitzgerald**

I first met Preston in 1990, he sold me my first fireplace. Who knew 20 years later his daughter would join our clan and bless us with 2 beautiful children. Preston, you may be gone from this earth but your spirit lives on. See you on the other side my friend. Luv Jerry McIsaac (Clan McIsaac). P.S. That old darn fireplace is still pumping out the heat :)

— **Jerry McIsaac**

Preston will be missed but his legacy will live on, what he did to build his business to such a success isn't achieved by many. He has now left that legacy for his family and friends to build upon and continues to support his family and friends.

R.I.P. Preston, you know you have proven your value to everyone that crossed your path.

Dave
