Messages of Condolence

In the early 90's I met Gary when we bought our first home, I started doing auto detailing, and Gary with AAA car world had me do a lot of work on his cars, it was a great relationship, loves working with Gary, he was a very nice guy. Our time carried on to the computer business and even the primerica time. Always a smile on his face and always happy to visit. When I ran and got elected to city council, Gary was a huge part of that success, talking to everyone, as things often do, we got busy and drifted apart, chatting from time to time, when I realized I haven't heard from him, I went looking, and found his obituary, thank you my friend for all the wisdom and time you shared with me, all the little chats and opportunities you gave, are blessings I'll cherish, rest in peace my friend.

I was searching for classmates from the graduating Class of 75, (then called "STI") when I came across Gary's obituary. My condolences to the family! Gary and I, and others from our class had some good times back in those days. He helped me out on more than one occasion, once with finding a car for me when times were tough. Lots of great memories with Gary from those days so long ago!
