## Messages of Condolence

I met Barb at the library card class, and looked forward to working on the same cards. Barb always managed to bring the group together, and it didn't take long to know of her love for butterflies and her dislike for yellow!! She spoke often of her wonderful daughter-in-law and sons - she was extremely proud of the wonderful things Lady Anne sent, and we all were in awe of her talent! I was fortunate that I was able to converse a little on her web site and to receive some very special pins, they are a treasure and cannot bear to part with any, so use for my own albums. I will never see a butterfly and not think of Barb, whether it is a sticker, a stamp or flying in the garden. She will be sorely missed at card class and mostly I will miss her impromptu visits after getting a Treasure from the Post! She was inspiring!!
