Never have a met a person who loved music as much as Glen. He loved listening, playing and engineering sound to make music of any kind. To play music with Glen was to be part of all that. I learned a lot, but especially the enjoyment of it all. My thoughts and prayers are with the family. He will be missed!

Glen helped me believe in myself when I didn't think I could. He did that for a lot people. He had a way of offering encouragement with a smile that made you think anything was possible. He helped other artists shine by letting them take centre stage while he weaved the beats that held them together. He tweaked countless sound boards and talked the mystical lingo that musicians wanted to hear in order to sound crisp and true. In the face of troubles, he had a never ending can do attitude that simply brought comfort to those around him. I honestly couldn't have wished for a better customer, jammer, and friend. I'm so sorry for your family, Gail. His loss has left a huge hole on our stage and in our lives. He was remarkable.
