Messages of Condolence

Thank you for having been a good friend, and taking the time for our
conversations. Miss hanging out with ya Patrick, and will not forget you

— **Colin C.**

You will forever be missed. I'll never forget the countless jokes that nobody could
beat, great conversations without judgement, interesting facts I always wondered
how you figured out, late nights out with the friends, memories that will never be
forgotten. You were a great friend to have, we love you

I worked with Patrick at Pratts Wholesale Foods for the past 4 years. I always enjoyed his dry- sarcastic sense of humour. He was a very independent worker & performed his daily job tasks effortlessly. He will certainly be missed by all who knew him. My condolences go out to his friends & family during this difficult time.

Just so everyone knows! I was Pat's first love, a very long time ago. At that time, I was Tina Miller. I was six months older than him. We were both 15 at the time, but I turned 16 in June which made me older! Haha! I was the first person he said he loved. He was a great person, but had many things he was trying to deal with at the time. Extremely handsome. social and built like a football player. I also, came from a very rough background. We connected in that way. I just want anyone to know, I appreciate Pat for being a part of the strong woman who supports youth that I became. He tried to reach out to me many years later, but at that time I was in an extremely abusive relationship. Pat was nothing, but kind to me. I eventually found someone who loved me for everything I was. I am so sorry Pat is not with us today! He lived through alot at a very young age! I am so sorry Pat
