Messages of condolence may be left for the family

Messages of Condolence

My wife is a resident of Clifton Manor suffering from a brain shrinking disease called bilateral cerebral atrophy and is in a vegetative state. Coralie often fussed over Linda and talked lovingly to her which meant a lot to me. I would often help Coralie find her walking stick when she would forget where she left it. We were friends. My sincerest condolences on her passing. She will be so very missed. My wife lives across the hall on the same Unit 300. (312 Bed #1)

Love, Kent and Linda Bodin
