## Messages of Condolence

He is so missed here in Saint John NB as well. I sometimes run into people we went to school with. There are so many places and things that bring him to mind almost daily.

Love Always. Until we meet again.

— **Ann Lynch**

Bob was a very kind, loving man. I will never forget the night after I had surgery. He and Tyler came to play their guitars and sing for me. It really touched my heart that he would do that for me. So considerate, but that was Bob. I miss him and loved him. Now you and Nick are together again. Rest in peace special guys...

I didn't know Robert himself personally but I know his ex-wife and children and that one evil and deranged family that should be institutionalized. To add some positive sentiments I have my doubts that Robert was like the rest of his family and it was them that caused him to drink himself to death. RIP Robert they can't mistreat you anymore.
