Messages of Condolence

I wish to express my sincere condolences to all of Dale's family. I met Dale in 1994 and knew him as a neighbour and very active and well respected member of this community. I will remember Dale fondly.

My very deepest sympathy. Carol

I am so very sad to hear of Dale's passing, he was an extraordinary person, kind, funny, smart, gentle and giving. Dale was one of the best Santa Clauses ever and always stepped up to the plate whenever needed to volunteer his services for the Schizophrenia Society. His presence will truly be missed. My thoughts and prayers are extended to his family as they go through this difficult time. Rest in peace Dale.

My deepest condolences to Dale's family. He always had a way of saying things that made me laugh. May you be still playing with the circuit boards and hard drives my friend. You will be truly missed.

Dale was a very kind, warm, friendly person. I always looked forward to seeing him at the SSA events. He would always amaze me talking about his ambitious art projects. He will be greatly missed.
