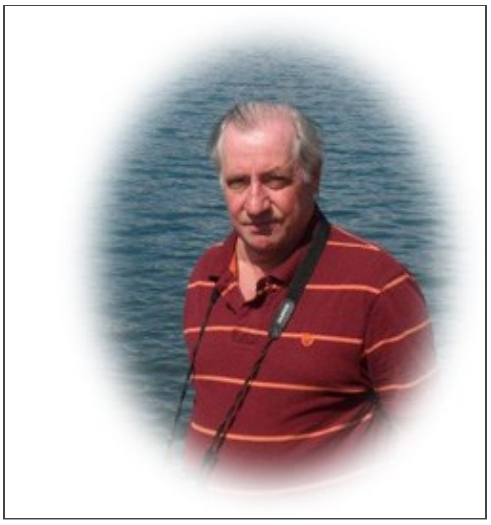
Jozsef Toll



MARCH 5, 2019

TOLL, Jozsef

1955 - 2019

Jozsef (Joe) is survived by his wife of over forty years, Ildiko Toll, daughter, Melinda Lundy (Logan), and grandchildren, Logan Jr. and Livia, plus countless friends and family in both Canada and Hungary.

Joszef was a master of all trades and could fix nearly anything. As an electrician by trade, he spent over 40 years working at various organizations, including the Palliser Hotel, Shaw Cable, and most recently the University of Calgary. He loved to travel with his wife and found joy sitting on the warm beaches of Cuba and Mexico. He lived for tinkering in his garage and fixing anything that needed fixing. He loved his grandchildren and adored playing soccer with his grandson. One of his favorite pastimes was arguing with his daughter about what new vehicle she was getting next!

Jozsef was a man of few words. He always did things his way, but with a big heart and a ready willingness to help whenever you needed him. He will be missed by those whose lives he touched.
