## Messages of Condolence

To all the family and friends of Carol:

I have been a friend of Mary Ann for over 40 years. It was through my friendship with Mary Ann that I got to know Carol when she was a teenager. She was always full of laughter

Please accept my sincere condolences during this difficult time.

It saddens me to know that it has been over a year since Carolynn's passing, but I just recently found out that she had passed away. I worked with her at Ashton Potter in Toronto and we became friends over our love of Perogies. I lost touch with her but got re-acquainted when I found out through a fellow work colleague she that she moved to Calgary. My job took me there on several occasions and we were always able to get together for dinner and catch up. I will always remember when she cooked up some perogies and invited me to dinner when she lived in Fish Creek Park. My belated condolences to David, Jeffrey and her family. She was talented great lady that left us far to soon and she will be missed. Orest Bandurka, Mississauga, Ontario.

I am so sad Carolynn is not with us. I worked with her in Calgary, Alberta, went to her home in Fish Creek Park and didn't realize that she passed. It is very sad to hear of her passing she was such a nice lady. I remember Jeff her son when he was quite young in Calgary- my sincere condolences to you and your family.
